

INVERTER GENERATORS - Petrol Powered

key features

Why choose an SIP Inverter Generator?

- Clean and Stable Power Supply**
 Thanks to digital inverter technology, these models deliver a reliable power source suitable to run laptop computers and other electronic devices - perfect for site offices, boats and caravans.
- Economy Control Switch**
 Varies engine speed according to load for increased fuel economy.
- Quiet, Lightweight and Highly Portable**
 SIP inverter generators are considerably quieter than traditional generators. They are also smaller and lighter increasing portability.
- Economical and Friendlier to the Environment**
 SIP inverter generators have a 30% - 40% lower fuel consumption rate, making them super economical and more eco-friendly compared to traditional generators.

Easy pull starting

Easy access to choke control

GENERATORS - Petrol Powered - HONDA

key features

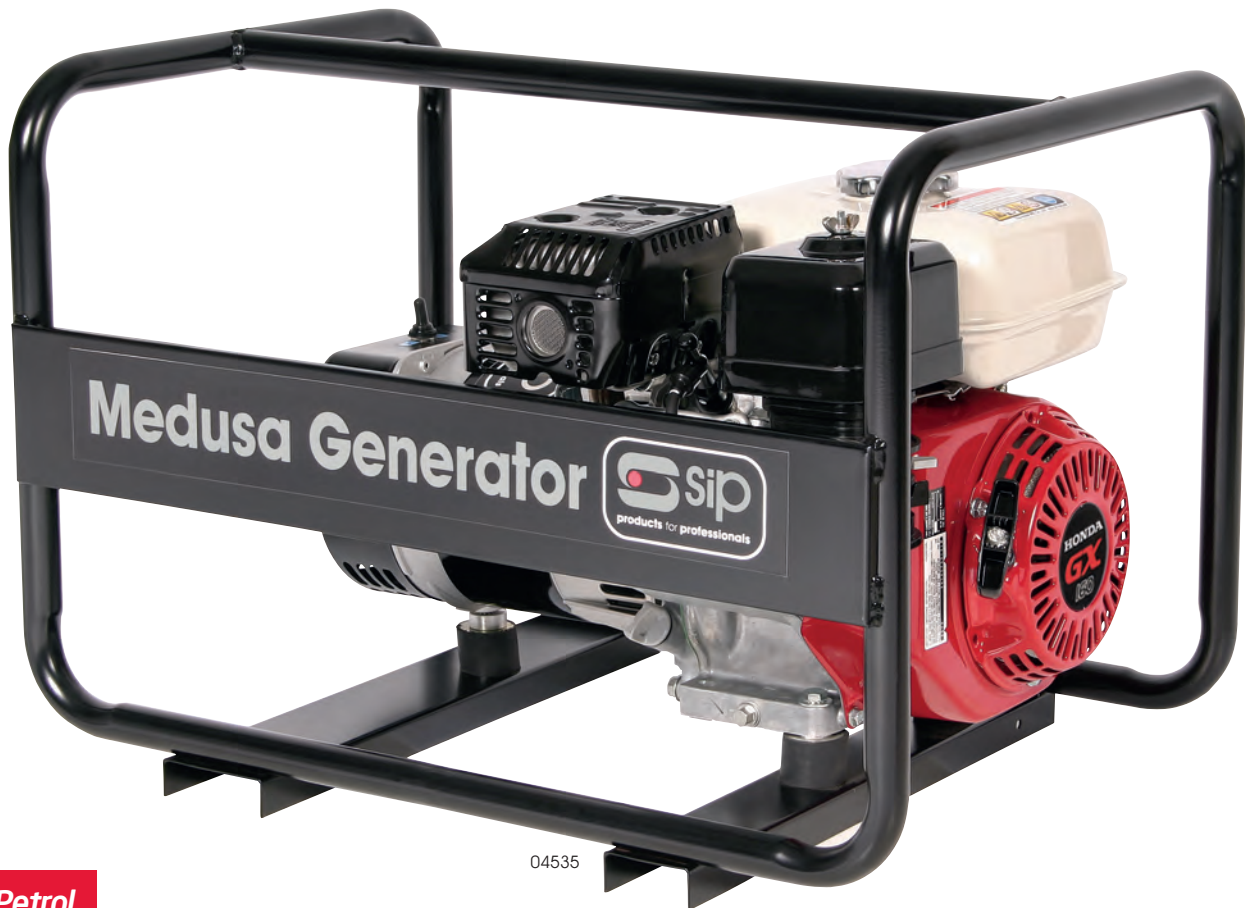

Our popular Honda™ generators are powerful, reliable and are covered by a Honda™ 3 year engine warranty.

These generators are robust and comprise a heavy duty maintenance free alternator, cast iron cylinder and rugged frame.

- 3 year engine warranty
- Splash fed lubrication system
- Low oil shut down, prevents potential engine damage
- Cast iron cylinder sleeve
- Hot spark electronic ignition
- Built and tested by SIP in the UK
